SAVORY BREAD

Taiwan is a leading country in terms of its bread and pastry industry. One reason why this is true is that the Taiwanese tend to consume bread the day it was made, which supports the standard of bread being always fresh, soft, fluffy, and most importantly, delicious. Green onion bread and pork floss bread are two of the authentic and most delectable treats among many on our savory bread menu. Take the time to try it out! We promise you won't be disappointed.
